

# MEMORIAL DAY

# GAS PRICES & FUEL EFFICIENCY

[www.PewTrusts.org/CleanEnergy](http://www.PewTrusts.org/CleanEnergy)

Proposed fuel efficiency standards—which would require cars and light trucks to get 54.5 miles per gallon by 2025—would save \$67 million this weekend.

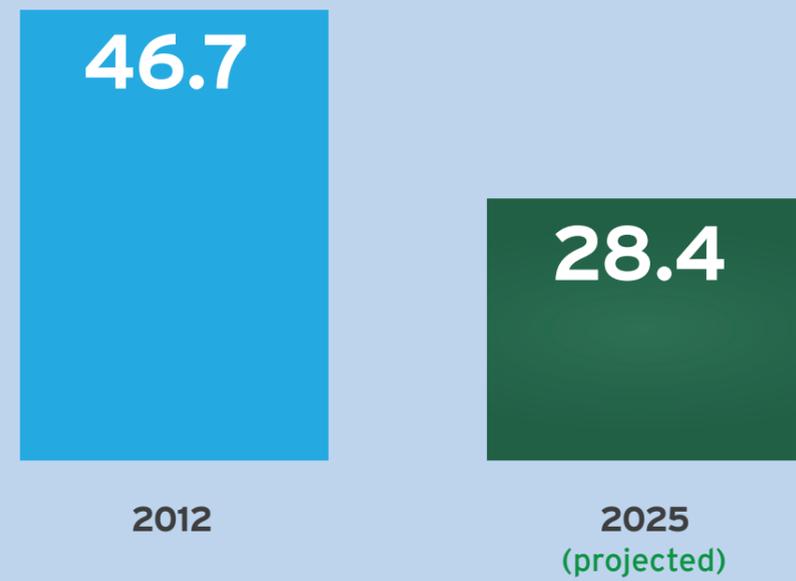

## US FUEL COST IN MILLIONS OF DOLLARS (USD)<sup>2</sup>

(50 miles, 31 million trips)

## US CONSUMPTION IN MILLION OF GALLONS<sup>2</sup>

(50 miles, 31 million trips)

<sup>1</sup> AAA estimates that approximately 31 million Americans will travel at least 50 miles over Memorial Day weekend 2012.

Gas price for 2012 and 2025 is \$3.67 per gallon and fuel efficiency numbers are based on current standard for model year 2012 and proposed standard for model year 2025 vehicles.
