

Time is running out.

The Kimberley is home to one of the last great unspoilt coastlines on Earth.

But just 5 percent of the region's coastal waters are protected as sanctuaries for marine life. The rest can be mined, dredged and polluted tomorrow. Mining is spreading rapidly across the Kimberley and now threatens the Buccaneer Archipelago (pictured).

West Australians deserve an iconic marine park to rival the Great Barrier Reef. It would boost tourism, create jobs and safeguard unique marine life. It's time to establish a Great Kimberley Marine Park.
